

A SCHEME for Raising 1,800,000 l. upon standing Orders in the Exchequer, Payable in Course, out of a Fund of 168,003 l. per Annum, for Thirty two Years; with a certain increase of Principal and Interest, according to several Classes, in the same manner as the Two Million Classes were last Year: And in this Scheme, there are 1800 Premiums or Prizes, which make the Premiums or Prizes, just One to Nine, over and above the certain Increase of Principal and Interest in every Class.

THE said 168,003 l. is in Proportion to the Fund granted last Year for the Two Millions in Classes.

THERE will be delivered out Eighteen Thousand Tickets or Receipts at 100 l. each, which amount to the said 1,800,000 l.

THE Mony contributed will be payable in four equal Payments, viz. One Fourth Part on or before the 1st day of August next. One Fourth Part on or before the 12th day of September next. One Fourth Part on or before the 24th day of October next. And the other Fourth Part on or before the 5th day of December next; with a Discount of 8 d. per Cent. per diem for the first Fourth Part, and 4 d. per Cent. per diem for the other three Fourth Parts, from the respective Days on which the same shall be paid to the 29th of September next.

THE Drawing and Course of Payment will be in the same manner as was in the Classes last Year.

AND every Ticket or Receipt will be intituled to the certain Principal Sum of the Classis in which it shall happen to be Drawn, or to such other larger Premium or Prize as shall be drawn against it, with Interest for the same at 6 l. per Cent. per Annum from the 29th of September next, till paid; only the Ticket which comes up next before any Prize of 1000 l. or upwards, will (besides the certain increase of the Principal and Interest in that Classis, or such other Premium as may be drawn against it) have the first Years Interest of that Prize; and the Ticket which comes up next after every such Prize will (besides the certain increase of Principal and Interest in that Classis, or such other Premium as may be drawn against it) have the second Years Interest of that Prize.

THE First and Last Drawn Ticket of every Class, will be intituled each to one of the 500 l. Premiums in that Class.

THE Drawing will be as soon as conveniently after the second Payment is made, and may be finished before the Third Payment becomes due, and may begin to be Drawn about the end of September next, and will be finished in about eighteen Days or less.

NOTE,

10

11

476.

NOTE, That whereas in the last Year's Classes, the Premiums or Prizes, were but One in every Twenty two Tickets or Receipts; in this they are One to Nine, and yet all the Premiums or Prizes of above 200 l. are the same in this, which is but for 1,800,000 l. as were in that which was for Two Millions: And yet the certain increase of Principal is but 5 l. in each Class less in this than it was in that.

THE whole will be divided into Five Classes, with such certain Increase of Principal and Interest, in every Classis, as in the following Tables.

A TABLE of the several Classes, and of the Number of Tickets or Receipts, and certain Increase of Principal and Interest, and Total Premiums or Prizes in every Classis.

	Number of Tickets in each Classis.	Principal Sum con- tributed.	Sum to be re- paid, with Interest for each 100 l. contribu- ted.	Interest per annum for each 100 l. contribu- ted.	Total Princi- pal Sums to be repaid.	Number of Premiums in each Classis.	Total A- mount of Premiums in each Classis.
